Cost

Physicians	\$ 65.00
Non-physicians	\$ 30.00
Residents/Fellows	\$ 15.00

Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Pennsylvania Medical Society and the Accreditation Council for Continuing Medical Education (ACCME) through the joint-sponsorship of Saint Vincent Health Center and The Regional Cancer Center. Saint Vincent Health Center is accredited by the Pennsylvania Medical Society to sponsor continuing medical education for physicians.

Designation

Saint Vincent Health Center designates this educational activity for a maximum of 4.75 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the educational activity. Application for CME credit has been filed with the American Academy of Family Physicians. **Determination of credit is pending.**

Disclosure

Faculty and all others who have the ability to control the content of continuing medical education activities sponsored by Saint Vincent Health Center are expected to disclose to the program audience whether they do or do not have any real or apparent conflict(s) of interest or other relationships related to the content of their presentation(s).

Disabilities

If your participation in this program requires any special arrangements, please contact Olivia Purchase at (814) 452-5717 at least one week prior to the event so we can meet your needs.

Nursing Credit

Nurses who attend the entire session and complete and submit an evaluation form will be awarded 4.75 contact hours. Saint Vincent Health System is a co-provider of this program and is an approved provider of continuing nursing education by the Pennsylvania State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Contact Hours

Participants who successfully complete this activity will be awarded contact hours. You must attend the entire program to receive credit.

Non-Endorsement of Products

Accreditation refers to recognition of continuing nursing education activities only and does not imply Commission of Accreditation approval or endorsement of any commercial product.

A complete list of supporters will be available as part of the program syllabus distributed at the conference.

Presented by

Today's Multidisciplinary Approach to Lung Cancer

Today's Multidisciplinary Approach to Lung Cancer

Need

There is an ongoing negative perception of treatment outcomes and management of adverse events related to the treatment of patients with advanced lung cancer. Physicians and other health care providers are less aware of new treatments particularly for later stage disease which can improve the quality of life. Survivability rates for patients diagnosed with later stage lung cancer have improved, but the rate in northwest Pennsylvania is less than the national average.

Goals

- To improve the timeframe from diagnosis to treatment of lung cancer
- To decrease negative perceptions of treatment outcomes for advanced lung cancer by improving the understanding of treatment options for this group of patients, which can result in palliation of symptoms as well as extended survival while allowing for quality of life
- To improve the general knowledge base in the staging and treatment of lung cancer

Target Audience

Primary care physicians, oncologists, pulmonologists, thoracic surgeons, general surgeons, nurses, nurse practitioners, physician assistants, pharmacists and other healthcare providers working with thoracic cancer patients will benefit from attendance at this conference.

Objectives

At the conclusion of this activity, the participant should be able to:

- identify dermatologic side effects of lung cancer therapies
- accurately assess dermatologic toxicities
- discuss management of dermatologic toxicities in patients with lung cancer in a multidisciplinary clinic
- describe the present status of surgical therapy for Stages I – IIIa NSCLC and the possible role of chemotherapy / radiation therapy before or after resection.

- describe molecular characteristics and tumor in vitro growth patterns related to prognosis and chemo-responsiveness
- discuss the use and indications of new and innovative biologic agents in the treatment of advanced/metastatic lung cancer
- explain the use of biologic agents in certain phenotypes
- identify the potential side effects and toxicities of the discussed biologic agents
- identify the indication for stereotactic body radiosurgery for thoracic tumors
- describe the rationale, techniques, risks, benefits, and potential side effects of stereotactic body radiosurgery for thoracic tumors

Course Director

Jan Rothman, MD

Medical Oncologist/Hematologist
Medical Director, Multidisciplinary Thoracic Clinic
The Regional Cancer Center

Faculty

Megan Dunne, APRN-BC

Nurse Practitioner for Clinical Trials
Memorial Sloan Kettering Cancer Center

David Friedland, MD

Clinical Assistant Professor of Medicine
University of Pittsburgh School of Medicine

Rodney Landreneau, MD

Director, Comprehensive Lung Center
Director, Lung Cancer Program
The Heart, Lung & Esophageal Surgery Institute
University of Pittsburgh Medical Center

Simon Lo, MD

Associate Professor of Radiation Medicine
Associate Professor of Neurosurgery (Joint appointment)
Ohio State University College of Medicine

Agenda

7 – 7:45 am

7:45 – 8 am

8 – 8:45 am

8:45 – 9:30 am

9:30 – 9:45 am

9:45 – 10:30 am

10:30 – 11:15 pm

11:15 am – 12 pm

12 – 1:00 pm

Registration and Continental Breakfast

Welcome and Introductions

Jan Rothman, MD

Assessment and Management of Dermatologic Toxicities in Patients with Lung Cancer in a Multidisciplinary Clinic

Megan Dunne, APRN-BC

Use of Innovative Biologic Agents in Advanced Metastatic Lung Cancer

David Friedland, MD

Refreshment Break

Surgical Intervention for Stage I – IIIa NSCLC Patients / Molecular Characteristics & Tumor In Vitro Growth Patterns Related to Prognosis and Chemo-responsiveness

Rodney Landreneau, MD

Stereotactic Body Radiosurgery for Thoracic Tumors

Simon Lo, MD
